

## **ONE YEAR ANNIVERSARY FOR 'A FAMILY MATTER'**

God has blessed the first year of A FAMILY MATTER “more than I could ask or imagine.”

In the first year I was privileged to see and offer hope to forty marriages, eleven individuals suffering from depression, anxiety or panic attacks, and eighty one families experiencing difficulties with their children. Ten alcohol and drug assessments were completed for individuals seeking in-patient treatment. In addition, two families were assisted with their adoption process and two social workers received regular professional supervision required by the state of Alabama.

The most exciting and gratifying aspect has been to see the large numbers of individuals and families who have experienced “miracles”/180s/transformations!!!! I congratulate these individuals and families for allowing “the mustard seed faith” to grow and see God’s mighty hand. Now I am seeing families who have experienced success through therapy refer other families to A FAMILY MATTER.

I give my sincerest thanks to the forty medical practices, churches, health centers, judges, probation officers, hair salons, and individuals who have referred these special people to A FAMILY MATTER. Each of you have been joint participants in seeing families turned from hopelessness to peace, victory and greatness. Thank you for making a huge difference.
